Crash I.T. Pty Ltd  
5/61 The Gateway  
BROADMEADOWS VIC 3047

To whom it may concern

**RE: Reference Letter – Dean Attard (Crash I.T. Pty Ltd)**

Our business relationship with Crash I.T. Pty Ltd and Dean Attard commenced in 2006, after the fire we suffered in 2004 we had been working out of a temporary site in Tullamarine, and engaged Crash I.T. to audit our I.T. infrastructure and help us to improve them.

Dean and the team designed a network solution for us and implemented it when we opened our new office in Keilor Park. Dean was consulted with the layout and setup of our server room, and consulted with the electrical and data contractors to insure the new office was fully functional in relation to our I.T. from day 1.

From a technical standpoint Crash I.T. implemented Microsoft servers with Active Directory and Microsoft exchange server, which we had previously never had, allowing for increased security and centralized document management. We had several I.T. suppliers for different parts of our network, Crash I.T. consolidated all of this and became our first point of call for all I.T. related issues for our head office and our stores, and would deal with all third parties to resolve issues.

Dean was also part of the team in implementing our MPLS across Australia, Dean was in charge of making sure that the implantation went according to plan, again dealing with all third parties to insure everything went according to plan.

Dean was able to handle all issues thrown his way, even when things didn't go to plan he was able to problem solve on the run while understanding that downtime had to be keep to a minimum.

Dean and the team were highly trustworthy as they always had access to sensitive information, however Dean in particular was a very trusted member of our team, and a positive can do attitude.

Kind Regards,

Anouk Lombard
